

# **AZENTIO ERP**

## **EXTENDED PROFILE**

## OVERVIEW

Azentio ERP is suitable for companies looking to manage their financial planning, project management, sales, procurement, and contracting in a single software solution.

Azentio Software acquired the Orion ERP product line from 3i Infotech in December 2020, backed by Apax Partners, to enhance its BFSI and enterprise offerings.

Azentio ERP helps organizations improve the efficiency of their decision-making while garnering a more in-depth understanding of their processes and workflows.

There are numerous editions of the platform catering to various industry requirements:

- Orion Distribution cloud
- Orion Contracting cloud
- Orion Financial Cloud
- Orion Manufacturing Cloud

## KEY FEATURES

- **Manufacturing module:** Users can closely manage the production cycle and analyze bill of materials, lifecycle costs, and waste.
- **Sales management console:** Track targets, plot demand, and manage customer data in real time through a dedicated sales console.
- **Advanced analytics & dashboards:** Actionable dashboards and smart notifications provide executives with data-driven insights and KPIs for faster decisions.
- **Modular & scalable architecture:** Adapt the system to growing needs with a modular design that supports seamless expansion without infrastructure overhauls.
- **Enterprise-grade security:** Multi-layered, role-based access controls and compliance features protect sensitive data across all modules.
