

# GLOVIA G2

# EXTENDED PROFILE

FUJITSU GLOVIA, INC.

## OVERVIEW

Glovia G2 is a highly visual ERP solution supplied by Fujitsu Glovia and aimed at discrete manufacturing businesses of all sizes. In particular, Glovia G2 is designed for the automotive, aerospace, and electronics industries.

The solution is ideal for adopters of lean manufacturing practices that wish to improve productivity and remove inefficiencies from their processes. A spreadsheet-like interface makes Glovia G2 suitable for teams used to working with Microsoft Excel or other spreadsheet solutions.

A key feature of the ERP is its flexibility and scalability. Glovia G2 offers users the ability to install any number of over 70 ERP modules alongside existing software and new product lines, plants and divisions can be added as an organization grows. Product, manufacturing, financial, project, supply chain, and customer management modules are all available. The user interface is centered on a visual workflow-based system, with color-coded 'traffic light' style alerts.

Glovia G2 is available as an on-premise solution and can be accessed via desktops and mobile devices.
