

# **JAAS JAMS**

# **EXTENDED PROFILE**

## OVERVIEW

JAMS is the JAAS Advanced Manufacturing Software from Ohio-based JAAS systems, a software provider and implementer in the manufacturing sector in the USA and Canada.

In addition to JAMS ERP JAAS also offer resale products including Acumatica ERP and Microsoft Dynamics ERP.

JAMS ERP is an end-to-end manufacturing system providing real-time visibility and communication tools that can support multiple production environments from life sciences to dog treat manufacturers and high-end technology companies. The product is modular with a series of standard options, such as bill of materials and routing, production management features including make-to-stock, engineer-to-order, make-to-order, repetitive, job shop, and Material Requirements Planning (MRP).

The inventory management system within JAMS ERP includes scheduling and ordering and automates the ordering process.

Additional ERP modules are also available, including release accounting, quality control, and HR functions.

The JAMS ERP can be integrated with many other software systems, including Microsoft and Oracle solutions. It is also fully customizable and available in multi-currency and multi-language. Industries using JAMS ERP include laboratories in the food and beverage sector, electronics, medical, industrial equipment manufacturing, and even the makers of climbing walls.

Companies that have recently become users include Express Group of Tulsa, Oklahoma which manufactures a range of industrial machines, and Quebec Company, SIPD Services, a high-end technology producer. Also, Ohio State University uses JAMS ERP as a CRM database.
