

**PRIORITY ERP**

**EXTENDED PROFILE**

## OVERVIEW

Priority ERP is an 'all-in-one' ERP solution, providing comprehensive, flexible, and affordable solutions to increase profitability and efficiency for companies and organizations of all sizes. It is ideal for businesses looking to quickly implement an ERP system that does not require intensive, ongoing maintenance. With offices in the US, UK, Israel, and Belgium, Priority is supported by a global network of business partners who market, sell, and implement Priority ERP solutions around the world.

Priority offers tailored systems that meet the requirements of its core vertical markets, including manufacturing, professional services, customer service, retail (including a built-in POS), healthcare, construction, automotive, agriculture, and more. Further, Priority provides logistics companies with fully-integrated supply chain management to optimize logistics networks, manage transportation and warehousing operations, and provide other value-added services to their customers.

Priority's system functionality covers all the fundamental elements of traditional ERP with primary modules, including finance, manufacturing, logistics, human resources, time and attendance, business intelligence, project management, and customer relationship management (CRM). Priority is offered both as on-premise and cloud solutions, both of which deliver 100% system functionality, enabling users to access their data in real-time from mobile devices and tablets.

Priority offers the necessary tools to achieve an exceptionally high level of flexibility, including Business Process Management (BPM), mobile application generator, user-level personalization to customize the UI, business rules generator, and other development tools.

Priority supports multi-company structures as well as multiple locations, languages, and currencies.

## SOFTWARE SCREENSHOTS

The screenshot displays the Priority software interface. At the top left is the 'priority.' logo. The top right shows the user 'John Smith' and a menu icon. Below this is a navigation bar with categories: Financials, CRM, Sales, Project Management, Purchasing, Inventory, and Customer Service. A 'Working Company' button is on the right. A search bar contains the text 'Search customers, parts, documents and more'. The main area features a grid of application tiles: 'Set Login Time', 'Set Logout Time', 'Task Log' (with a '2' badge), 'Projects', 'Reported Hours Analysis (BI)', 'Calendar', 'Bal. Sheet/P&L Report Items', 'Sales Orders' (with a '7' badge), 'Sales Invoices', 'Sales Reps Wizard', 'Print Sales Rep Commission', and 'Sales Rep Hierarchy'. On the right, a 'Recent Items' sidebar lists: Sales Rep Hierarchy, Projects, Set Logout Time, Reported Hours Analysis (BI), Set Login Time, Bal. Sheet/P&L Report Items, Print Sales Rep Commission, Calendar, Sales Orders, and Customer Dashboard. Below this is a 'Latest Updates' section.
