ERPFOCUS

ONEADVANCED ERP

EXTENDED PROFILE

OVERVIEW

OneAdvanced ERP is a modular system for midmarket organizations focused on improving financial and people management, i.e. faster month-end closes, tighter spend control, and accurate payroll and rostering for shift workers.

Instead of one all-in-one system, buyers pick applications from five portfolios:

1. Finance: General ledger, multi-entity consolidation, record-to-report, dashboards, fixed asset depreciation, MTD
2. Procurement: Purchase-to-pay, three-way matching, contracts, supplier scorecards, spend analytics
3. Operations and workforce: Real-time matching of staff skills to tasks and shifts
4. HR and payroll: Core HR, UK payroll, biometric clocking, auto-rostering, talent and hiring
5. Governance and risk: Board packs, risk registers, audit trails

The ERP also includes embedded AI agents for jobs like spotting duplicate payments and payroll anomalies, reading supplier contracts and manifests, and running "what-if" forecasts. Ask to see these on your own data in the demo, because scripted demos rarely show the awkward edge cases.

The manufacturing, wholesale, distribution, and logistics-centric ERP includes built-in UK compliance, covering Making Tax Digital, Working Time Regulations, National Minimum Wage, and ESG reporting.

WHAT IS ONEADVANCED IQ?

OneAdvanced IQ is an AI-powered "Intelligent System of Work" layer that integrates workflows, data, and people across OneAdvanced ERP and third-party tools.

ABOUT THE VENDOR

OneAdvanced is a UK software vendor (known simply as Advanced until its 2024 rebrand) that sells a modular ERP suite to mid-market organisations.

The vendor says more than 3,000 UK-headquartered organizations use its software and that its payroll systems pay around 500,000 employees a month
