

BW DESIGN GROUP MANUFACTURING ERP EXTENDED PROFILE

OVERVIEW

Barry-Wehmiller Design Group is an end-to-end ERP solution provider with a broad range of expertise in the manufacturing industry. We are the Engineering & IT Consulting Platform of the Barry-Wehmiller Family of Companies, with over 45 locations worldwide.

Thirty-Five years of operational expertise in ERP paired with a comprehensive portfolio of complementary business software solutions such as PLM, CPQ, MES, and WMS enable us to analyze operations from a “big picture” perspective in contrast to companies that only specialize in ERP.

Barry-Wehmiller Design Group is an Infor Gold Implementation Partner representing ERP solutions including CloudSuite Industrial (SyteLine). Infor ERP solutions have embedded industry-specific functionalities and are built on a Cloud operating platform designed to bring productivity, business processes, and Artificial Intelligence together, and offer operational insights that were never accessible to a business before.

This operating platform can also easily integrate with third-party software applications using a purpose-built middleware solution. The result is a connected, intelligent network that automates, anticipates, predicts, and informs your stakeholders, unifying your business.

Our ERP solution, paired with our broad portfolio of manufacturing-specific skill sets, gives us the unique ability to connect your Operational Technology with your Information Technology Solutions.
