ERPFOCUS

INFOR VISUAL EXTENDED PROFILE

infor

OVERVIEW

Infor VISUAL is an ERP for small and mid-sized order-driven manufacturing companies. It is a complete, end-to-end ERP solution that provides a range of features to help companies manage their operations efficiently, including costing, scheduling, and material planning tools.

The software is designed to be user-friendly with an intuitive interface and offers a choice between on-premise or hosted cloud-based SaaS deployment. Infor VISUAL is built on the Microsoft SQL Server database and integrates with Microsoft Office.

BENEFITS OF INFOR VISUAL:

Some of the key benefits:

- **Increased revenue and profitability**: Infor VISUAL's patented scheduling system helps companies determine delivery dates and optimize shop floor capacity to meet customer demand. The software enables businesses to maximize throughput and increase profit margins by identifying bottlenecks and suggesting resource-loading adjustments.
- **Enhanced customer satisfaction**: The software's ability to accurately schedule production and ensure timely delivery increases customer satisfaction.
- **Improved shop floor efficiency**: Infor VISUAL's ShopFloor Mobile application provides real-time access to scheduling data, dynamic dispatch lists, and quality control/inspection information, allowing for a paperless and efficient shop floor operation. Operators can see what to work on next, locate materials, and track job progress, leading to reduced waste and increased productivity.
- **Real-time visibility and data insights**: The software provides real-time visibility into all aspects of the manufacturing process, from job status to inventory levels. This real-time data empowers companies to make informed decisions and respond quickly to changing conditions.
- **Comprehensive quality management**: Infor VISUAL offers robust features, enabling businesses to control and manage quality throughout the product lifecycle. It helps to streamline quality processes, track compliance, and ensure consistent product quality.

USER EXPERIENCES

Several Infor VISUAL users have shared positive feedback, praising its functionality and ease of use. One user highlights that, despite its comprehensive features, Infor VISUAL is relatively easy to learn compared to other major ERP systems like SAP or Oracle. Another user with over 30 years of experience with the software states that no other ERP system they've encountered compares to Infor VISUAL in terms of functionality and ability to meet diverse client demands. However, some users point out the need for a knowledgeable implementation partner to maximize the software's potential and avoid configuration issues.
