UNANET ERP

EXTENDED PROFILE

Unanet

OVERVIEW

Unanet ERP is a comprehensive ERP tailored to meet the specific needs of government contractors and architecture and engineering (A/E) firms.

Designed to streamline project management, financial operations, and compliance requirements, Unanet's software offers a unified platform that enhances operational efficiency and decision-making.

KEY FEATURES

- **Project management:** Plan, track, and manage complex projects in real-time with configurable tools that adapt to unique business needs without compromising compliance or efficiency.
- **Contract management:** Automate reporting and reduce errors across all contracts, ensuring increased efficiency while maintaining strict compliance standards.
- **Subcontractor management:** Enhance relationships and profitability with unified data and automated processes for tracking, processing, and payments, all within a single system.
- **Time & expense tracking:** Automate the capture, approval, and allocation of project time and expenses, supported by a mobile app for on-the-go access.
- **Resource forecasting & planning:** Strengthen proposals, streamline planning, and identify skill gaps and resource bottlenecks proactively.
- **Financial management:** Manage transactions, costs, and revenue with real-time insights.
- **DCAA compliance:** Ensure full compliance with Defense Contract Audit Agency (DCAA) standards, covering aspects from timekeeping to incurred cost reporting.
- **Analytics & reporting:** Gain clear insights with interactive charts and customizable dashboards, facilitating informed decision-making

PROPOSALAI INTEGRATION

In November 2024, Unanet expanded its capabilities by acquiring GovPro AI, an AI-powered proposal writing platform. This integration led to the development of ProposalAI, a tool designed to automate and enhance the proposal drafting process for government contracts.

ProposalAI enables users to generate high-quality initial drafts rapidly, significantly reducing the time and resources traditionally required for proposal creation.
